Note: The Duration of courses taken into account varies with Capabilities, efficiency, hard work and devotion of the students towards the course. From management's previous experience it is our sincere advice to the students and parents that they must take admission only after ensuring the zeal of the student to work hard and sincerity so that it may not result in sheer wastage of time and money. It is found that irregularity of the students in attending classes give poor results. Only a regular sincere student can give good and satisfactory results.

The Institute imparts only coaching/training for various courses. The institution does not award any Degree/Diploma or Certificate that is awarded by relevant Governing Body / Institution only.

As per our previous experience it has been found that nearly 15-20% students leave the institute in every semester because of change of climate, medium of education, home sickness, toughness of courses etc. This is a very sincere advice from the management to every applicant and parent that they must admit their ward only when they can overcome above mentioned difficulties as well as they must feel satisfied with facilities provided by the institute because there is no provision for any refund of fees.
